MAKE YOUR OWN P-22 HAND PUPPET

Ready to put on your own P-22 puppet show? Here's what you need in addition to coloring tools: scissors, tape, and your imagination!

- 1 Color in the two P-22 faces.
- 2 Carefully cut out each.
- 3 Tape together the blank sides of the tops of the heads, so the edges of the faces line up back to back.
- 4 Then tape the blank sides of the head together to create a "pocket" for your hand.
- 5 Put your P-22 puppet on your hand and create your own show!
- 6 Turn your hand over to reveal which P-22 expression fits your story best.
