

## MAKE YOUR OWN P-22 MOVABLE PAPER DOLL

Time to take your P-22 out to play! Here's what you'll need: scissors, two brass fasteners (or substitute), coloring tools, and energy. Directions with adult supervision:

- 1 Color in and cut out P-22's body parts.
- 2 Place P-22's legs and tail on top of his body according to illustration in top right-hand corner.
- 3 Use fasteners to punch holes through black circles and attach his legs and tail to his body.
- 4 Optional: You can also tape or glue a craft stick to the back of P-22 if you'd like to hold him that way.
- 5 Take P-22 on an outing!
